Calpine Renews National Service Agreement with Hydro

On May 11th, 2010, Hydro was selected as Calpine's National Pump Repair Supplier. Hydro is proud to announce that the agreement to support Calpine's operating locations throughout the United States was renewed on January 25th, 2012.

Founded in 1984, Calpine Corporation is the largest publicly traded, independent wholesale power company in the U.S. that can deliver approximately 28,000 megawatts of clean, reliable electricity to customers and communities in 20 U.S. states and Canada, with 91 operating power plants and two under construction.
