Hydro Inc. acquires Energy Repair Services

Hydroinc.is pleased to announce the acquisition of Energy Repair Service in Denver, Colorado, as the latest addition to the Hydro fleet. The 27,500 sq. ft. facility will play an important role in providing pump aftermarket services to customers in the Rocky Mountain region in the Power, Pipeline, Refining, Chemical, and Mining industries. Jim Surkau will be the VP & GM of the new facility and lead the transition of the coworkers and facility.
