

Hydro Scotford Appointed Certified Service Vendor for ITT Goulds Pumps

Hydro Scotford's pump service facility in Fort Saskatchewan, Alberta, Canada, has been appointed as a certified services vendor for ITT Goulds Pumps. Hydro Scotford provides aftermarket service for high-energy pumping equipment in the oil & gas and power industry markets and will support Goulds' population of equipment in the Oil Sands region. As an established pump service provider and certified vendor, the Hydro Scotford service facility will operate in accordance with ITT technical, quality and safety guidelines. Repairs and upgrades will be made with the supervision of ITT field service personnel. This new service support will allow ITT to provide reduced cost and improved reliability to their customers in the Alberta area. For more information about Hydro's comprehensive pump services for Goulds pumping equipment, please call Dennis Plaizier at 780-992-0100.
