

Visit Hydro at Power-Gen International

Visit Hydro at Booth #1000 to share with us some of the challenges you are facing and learn more about how Hydro may be able to assist you. We would enjoy the opportunity to share with you information about our recent pump project successes and enhanced capability to serve pump users in the power generation industry.

Allow us to introduce Jeff Smith, of Hydro Parts Solutions, to share with you our enhanced capability to support your parts needs, including difficult-to-source cast parts - such as impellers, diffusers, discharge heads, casings, bowls and suction bells.

Hydro's Booth will be easy to find! [Click to view the conference map.](#)

We look forward to seeing you at the show!

DECEMBER 11-13, 2012

**Orange County Convention Center
Orlando, FL**

Booth #1000
