

Hydro is pleased to introduce Hydro Richards

Hyd

ro, Inc. is pleased to introduce Hydro Richards, its newest service location in Canada. The facility is located in Port Coquitlam and is conveniently located close to the TransCanada Highway, US Border and Vancouver International Airport. Hydro Richards specializes in pump repairs and has extensive experience in the manufacture of machined pump parts and babbitted bearings, with shafts being a solid area of expertise. They also provide special overlays and coatings to increase component life. Hydro Inc has added its complete array of pump services to strengthen their product and service offerings in the Pacific Northwest.

For more information regarding the services and capabilities of Hydro Richards, please visit our website at: www.hydrorichards.com
