

## Pumps & Systems 10 to Watch: John Roberts

Join Hydro in congratulating Sr. Engineer John Roberts for being chosen as one of [Pumps & Systems](#) magazine's **10 to Watch** for 2025! John is part of Hydro's Global Engineering team, based in the United Kingdom, and is a critical part of developing custom solutions for Hydro's end user customers.

When asked what led him to specialize in aftermarket engineering, Roberts said, "What really draws me to the aftermarket side is the variety. No two projects are ever the same. You're constantly adapting designs or methods to suit each situation, and that creativity keeps the work fresh and rewarding."

Read more about John's journey in the pump industry in Pumps and Systems' feature [here](#).
